- Digitalized Classrooms for Interactive learning.
- Offline and Online Exams for testing your potential and competing with students all over the State.
- Continuous feedback and improvisation so that you just go on scoring.
- Personal feedback center for every student.

KOKATE - DIGITAL TEACHING

As each student has a unique set of skills and capacities for understanding, we tailor our instruction to their level. For instruction and review, we use highly animated **power point presentations**. This keeps the students interested in the material and engaged. To ensure that no student falls behind in their learning, we also give individualised attention to students who need extra support or help.

KOKATE - WORK-SHEET (WS)

We advise students to write the same concept question in their subject-specific note book as we finish any theoretical concept in order to improve their writing practice and to enhance comprehension of memory.

KOKATE - DAILY QUESTION WRITING (DQW)

Students are not learning or practicing big questions at home. We use a method called **daily question writing** to make this habit stronger, We give the students a question to learn the day before the following day, and they are required to write that question down in our daily question writing book without looking at it. The 150 to 200 questions we produced each year using this method of question writing over the course of almost six months were more than enough to finish their paper.

KOKATE - ASSIGNMENTS (ASMT)

We ask students to write down all of their short and objective responses after finishing any topic, identifying this as an assignment. This helps them reinforce their learning and retain the information better. Additionally, it also allows us to assess their understanding of the topic and provide feedback accordingly.

KOKATE - WEEKLY TEST (WT)

Every Sunday, we hold a "weekly test" following the completion of the "worksheet," "daily question writing," and "assignment." This helps us to assess the progress of our students and identify areas where they may need extra support. Our weekly tests are designed to challenge our students and help them develop their critical thinking skills.

KOKATE - COUNSELLING

After administering a weekly test, we conduct one-on-one counselling with the student for their performance on a respected topic with a respected subject teacher based on their performance on the paper. If he or she falls short of our expectations, we talk about the reason why? try to determine the cause, and work together to improve their performance. Our goal is to help students achieve their full potential and succeed academically. We believe that personalized attention and support can make a significant difference in a student's academic journey.

KOKATE - IMPROVEMENT

After counselling session is over, if we learn that the student is lacking in a particular area, so we schedule an additional lecture or assign an improvement task, extra classes to ensure their understanding. It is important to provide support and resources for struggling students, such as tutoring or study groups, to help them succeed.

KOKATE - 99 PAPER TEST SERIES (99 PTS)

We conduct special **test series** in accordance with the preferences of the students after completing the curriculum for all subjects. Due to our 25 years of experience, we are aware that students are not prepared to take exams covering the entirety of any subject's syllabus, so we invented the "99 paper test series," in which we conduct topic-wise exams. but in a cumulative manner; for instance, if a subject has ten topics, we arrange one paper on one chapter, the second paper on two plus one chapter, and so on. We cover every subject and every topic in this test series. This approach helps students assess their understanding of each topic individually as well as in a combined manner. Additionally, it also helps them identify their strengths and weaknesses in each subject.

KOKATE - KUNDALI

We call this report "Education Kundali " because we provide all reports, including "Attendance Report," "Test Reports," "Worksheet Reports," "Assignment Reports," "Counseling Reports," and "Overall Progress Report," in our app in an aesthetically pleasing manner. This report provides a comprehensive overview of the student's academic performance and progress. It helps parents and teachers to identify areas of improvement and take necessary steps to enhance the student's learning experience.

Arkdes

- App for Practice

Kokate

- App for Management

QUESTION PAPER -

All exam papers are set according to the Board paper pattern by ex-board teacher. Students get full mock practice of both papers & environment of exams as well as compete with the best of the best in inter district exams.

RESULTS -

All papers are examined in accordance with sample solutions provided by real board paper moderators. Results are announced online and offline in our Kokate app and in classroom by respective subject teacher. Additionally, students are encouraged to review their papers and seek feedback from their teachers to improve their future performance.

COURSE MATERIAL -

All study material is highly graded, easy to understand and set to give full marks. In addition, the study material is regularly updated to ensure that it covers all the latest developments in the field. This makes it an excellent resource for students who want to stay ahead of the curve and excel in their studies.

INTENSIVE COACHING -

Batches are segregated in accordance to performance and special coaching is imparted. This ensures that each batch receives personalized attention and training to help them improve their skills. Additionally, progress is closely monitored to track improvement and identify areas that require further focus.

PARENTS MEETING -

Parents are regularly updated on the students performance as well as presented reports, and an improvisation programme is scheduled as per the student's needs. This ensures that parents are aware of their child's progress and can provide support wherever necessary. Additionally, the improvisation programme allows for tailored learning experiences to help each student reach their full potential.

CAREER GUIDANCE -

Students are given extensive guidance and motivation for their careers by experts in the commerce industry. This guidance includes insights into the latest industry trends and developments, as well as practical advice on how to succeed in the competitive job market. Through this support, students are better equipped to make informed decisions about their future and achieve their professional goals.

FELICITATION -

Top scorers and performers as well as winners of KBC contest are felicitated with Certificate/ Medals/ Trophies in a grand ceremony. The event is attended by esteemed personalities from various fields who encourage and motivate the winners to continue their pursuit of knowledge and excellence.

FEEDBACK & SUGGESTIONS -

A continuous update is kept on every student and faculty by way of online feedbacks. This helps to identify areas of improvement and address any concerns or issues in a timely manner. Additionally, it allows for effective communication between students, faculty, and administration.
